

In partnership with Convoy of Hope, BGMC is helping Assemblies of God missionaries who are doing their part to help end world hunger. Currently, Assemblies of God missionaries have programs to feed children all over the world, and Convoy of Hope is one of the primary supply chains for these nutritious meals. In Haiti alone, Convoy of Hope stocks a huge warehouse full of boxes and barrels of food to meet the need.

BGMC helps provide much of that food, but we want to do more. There are missionaries who wonder if the food supply will run out. There are children on waiting lists for this food. Imagine waiting... hoping... that your name would get to the top of the list just so you can be assured of one good meal a day.
