

A Change in Girls Ministries Training Resources

In an effort to provide the same valuable resources to all church ministries departments, the Girls Ministries training courses will soon be released under a new cover and title.

Missionettes Leadership Development Units: Bronze is now

Missionettes Leadership Development Units: Silver is now

The courses contain the same information, with the exception of the *Momentum Leadership Development Units: Community* (formerly *Missionettes Leadership Development: Silver*). In order to make the material relevant to all church ministries departments, the unit titled "Your Missionettes Model" has been replaced with "Community Outreach." Since the material is almost the same as before, it will not be necessary for leaders who have completed the requirements for the Bronze and Silver training courses to retake these courses.

Although the resources will now be available to leaders in other church ministry areas, the achievement process for Girls Ministries leaders remains the same.

The *Mpact Leadership Development Units: Gold* training course will also be updated later this year as part of the Momentum Leadership Development series.

MOMENTUM LEADERSHIP DEVELOPMENT UNITS
